

# Risk for African-American Women in Metro Atlanta

Breast cancer is the most common form of cancer among African-American women.

## Late-Stage Cancer Diagnosis

## Death Rates

# Reasons African-Americans Don't Get Breast Health Care

**Breast cancer is not a critical issue**

**Community doesn't talk about being sick**

**No local role models to share their story**

**Screenings not close to other doctors**

**Don't know about free services**
